## A. Introduction

1. We've developed a web site called hostel for LI JING Hostel (麗晶大賓館) . It is used for promoting the business of LI JING Hostel.
2. This document is to give a brief introduction to the hostel web site.
3. LI JING Hostel is a non-profit organization dedicated to providing affordable short-term accommodation for both local and international travelers.
4. LI JING Hostel's vision statement: "Where journeys begin, and memories stay. 旅程從這裡開始，回憶永遠留在心中。"
5. LI JING Hostel is operating ten hostels in: Sham Shui Po, Kowloon City, Tai Po, Wan Chai, Tsuen Wan, Eastern, Sha Tin, Yau Tsim Mong, Central & Western, Kwun Tong.
6. LI JING Hostel has four types of rooms: office-style (辦公室型), romantic-style (浪漫型), family-friendly (歡樂型), and study-focused (專注型).

## B. Design methodology

1. Collect client's/users' requirements about the hostel web site.
2. Plan the resources including time and human resources.
3. Select the tools for constructing the hostel web site:
  - (a) Visual Studio Code
  - (b) Django
  - (c) Git and GitHub
  - (d) Postgres Database.
4. Analyze the business logic of the hostel web site.
5. Adopt the most cost-effective approach.

## C. Functions & structure of the hostel web site

### Functions

HOME page: Search for hostels; Navigate to other pages; Promote value-added services (consulting, rental, HSR ticket ordering).

## Database (continued)

D. Database & class diagram (continued)

Class diagram

Explanations:

1. The Listing class stores particulars for hostels. The HostelManager class records data for hostel managers. Each hostel is managed by one and only one hostel manager. A hostel manager may be responsible for managing more than one hostel.
2. A hostel may have special facilities such as 24-hour convenience store or 24-hour open public space. The number of these facilities for a hostel ranges from zero to more than one. The Subject class stores all facility types that a hostel may have. Same type of facility may appear in different hostels. Out-dated facility types will be deleted.
3. The class Contact records data for the inquiries made by registered members of LI JING Hostel. No relationship exists between the Contact class and the other three ones shown above.

## F. ABOUT page (continued)

Established in July 2005, LI JING Hostel is a non-profit organization dedicated to providing affordable short-term accommodation for both local and international travelers. With a vision of “Where journeys begin, and memories stay,” we strive to offer more than just a place to sleep—we aim to be a welcoming gateway to Hong Kong and beyond. Our mission is rooted in hospitality, accessibility, and cultural connection.

Today, LI JING Hostel proudly operates ten hostels across Hong Kong, each designed to offer comfort, convenience, and community. Whether you're a solo backpacker, a family on vacation, or a business traveler, our hostels provide a safe and budget-friendly environment tailored to your needs. By supporting short-term stays, we also contribute to the vitality of Hong Kong's local economy and promote regional tourism.

Our services extend beyond accommodation. We offer three value-added services to enhance your stay: consulting services that provide insider tips on shopping, dining, and sightseeing; rental services for essential items like notebooks, computer accessories, and phone chargers; and assistance with High Speed Rail (HSR) ticket booking for guests planning to visit nearby cities such as Shenzhen, Macau, and Guangzhou. These offerings are designed to make your travel experience seamless and enjoyable.

## N. Conclusions

1. The main challenge in developing this website was the need to learn how to use the Django framework within a very short period of time, while also integrating operations with the Postgres database to meet the client's requirements.
2. As such, the development of this website is actually divided into three phases, and what you are currently seeing is only the result of the first phase.
3. GitHub was used throughout the development process. The source code and related documentation for this website have been publicly hosted at the following URL:  
<https://github.com/hosiuhangdesmond/hostel> (then select the branch named "[new](#)"). You are welcome to review, critique, or provide feedback. The development progress of phases two and three will also be updated there.
